

ABB IRB 340SA

The used ABB IRB 340SA wash-down robot is built with a special paint finish, corrosion resistant materials, sealed components, and a specially designed fourth axis with slide bearings for easy cleaning. This parallel link robot is especially suited for use in packaging applications with open food.

This is a reconditioned wash-down version of the ABB IRB 340 delta robot. It features IP67 protection rating. All used ABB IRB 340SA robots have undergone a very meticulous refurbishment process and come with the RobotWorx Value Package.

For more information about the ABB IRB 340SA,
