

FANUC F-200iA

The FANUC F-200iA is a six axis industrial robot perfect for material handling applications. The F-200iA R-J3iB adds additional flexibility to any shop and is easy to integrate onto any factory floor. It can be attached to the floor, wall, or inverted.

If you are looking for a used FANUC F-200iA, look no further! RobotWorx experts work hard to put all of their refurbished robots through an intense reconditioning process. Additionally, any reconditioned F-200iA comes with the RobotWorx Value Package.

Advance your company today with a new or used FANUC F-200iA R-J3iB robot!
